A Medicine Chest in Miniature. Mishler's Herb Bitters is not a beverage; but a strictly medicinal preparation, more thoroughly adapted to the wants of the general public than any other in the market. Unlike all other so called Remedies, it is prepared under the direct personal supervision of an eminent Physician. 8. B. Hartman, M.D., the senior projector, is a regular graduate of the Jefferson Medical College of Philadelphia, and a practicing physician of large experience and extensive protice. In such hands the public may rest assured that Mishler's Herb Bitters is compounded in strict secondance with correct Pharmaceutical principles, and that none but the choicest ingredients enter into its composition. Its immense sale alone is conclusive proof that it possesses merit of a high order. Merchante, bankers lawyers, clerks and obthers engaged in sedentary occupations, experience its wonderful effects in relieving the depression caused by severe mental labor; while the mechanic, farmer and laborer find their bodily vigor restored like mag'e by its use. Mishler's Herb Bitters is not a beverage; bu like magic by its use.

At this season of the year when Diarriera,
CRAMPS, COLICS and kindred disorders, caused
by sating unips fruits, imprudent indulgence
in cold drinks, etc., are prevalent, a certain
speedy and enectual remedy will be found in

form its allotted work regularly and without interruption.

It is the unserving certainty of desired results extendent on its use, coupled with the fact that it is prepared by a physician of eminence in his profession, that has rendered Mishler's Herb Bitters so popular, and as familiar as a household word. Thousards of Mothers sit ever the land have found it to be the safest and best remedy for use in their tamilies; they not only give it with perfect safety to even the youngest child, but when used with caution find it the salest means of emuring their even health and freedom from the weary schees and pains incident to their tex. Perfectly harmies, it is just the remedy needed by them to enable Nature to perform her functions naturally, requisity and sithout business.
